rudra1337-dev.vercel.app

Bhubaneswar, Odisha

Education

Gandhi Institute of Technology and Management

Bachelor of Technology (B.Tech) in Computer Science and Engineering

Relevant Coursework: Data Structures & Algorithms, OOP

2024 – Present

CGPA: 8.0

Technical Skills

Languages: C, Java, JavaScript

Technologies/Frameworks: Node.js, Express.js, React.js, MongoDB, Bootstrap

Developer Tools: Git, GitHub, Postman

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST API Development, Authentication (JWT, bcrypt), Middleware & Routing, API Design, Asynchronous Programming (Promises, async/await), Web Security

Relevant Experience

Web Development Intern (Training)

March 2025

Gandhi Institute of Technology and Management, Bhubaneswar

- Learned and applied foundational web development concepts using **HTML, CSS, and JavaScript**
- Gained hands-on exposure to **Node.js and Express.js** for backend development
- Built and tested REST APIs for client-server communication
- Implemented basic authentication using JWT and bcrypt
- Worked with MongoDB for basic data storage and schema design
- Used **Postman** for API testing and debugging

Projects

GateCrowd (MERN Stack)

January 2026

- Designed and developed a real-time crowd management system aimed at improving visitor experience at high-traffic locations such as Jagannath Temple
- Enabled **real-time data synchronization** supporting 20+ concurrent users using efficient backend architecture
- Built and optimized **scalable RESTful APIs**, reducing response time by ~20%
- Implemented structured schema design and efficient routing to ensure system scalability under peak usage
- Independently handled full-stack development, including backend logic, API design, and frontend integration
- Live: gatecrowd.vercel.app
- GitHub: github.com/rudra1337-dev/gatecrowd

Clock App (HTML, CSS, JavaScript)

March 2025

- Developed a responsive clock application featuring **timer, alarm, and stopwatch modules**
- Improved user experience with an **interactive and intuitive UI across three core functionalities**
- Implemented efficient **DOM manipulation and event handling** to ensure smooth and responsive performance
- Live: rudra1337-dev.github.io/Clock-APP
- GitHub: github.com/rudra1337-dev/Clock-APP

Highlights and Achievements

- Finalist – BPUT Hackathon 2025
- Participated in **3+ hackathons**, developing full-stack applications in fast-paced, team-based environments
- Solved **200+ Data Structures and Algorithms problems** across coding platforms

Coding Profiles

- LeetCode:** leetcode.com/u/rudra1337-dev
